

3 - Simple Actions you can take to address issues with NHP Prior Authorization implementation:

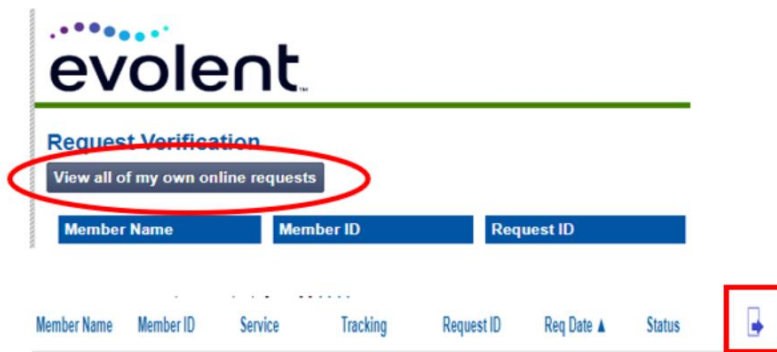

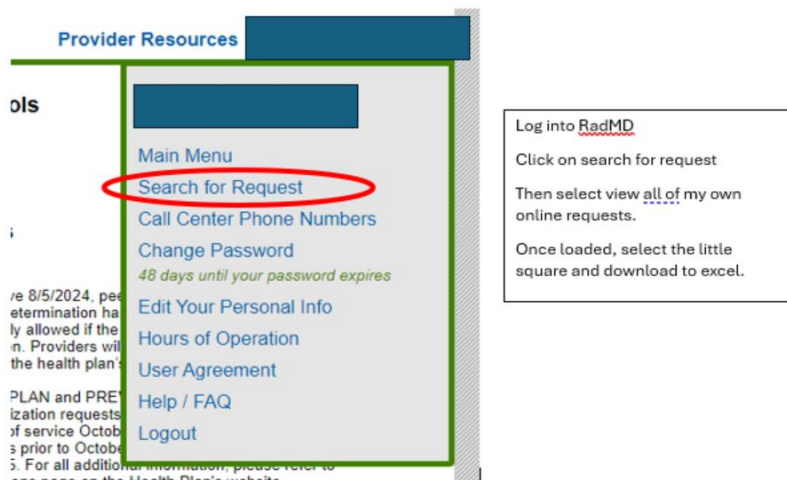

But First - A huge THANK YOU to practices who sent in their PA UM data to us for future advocacy!

1. **Keep sending in your data- Process simplified!**

APTA RI Payment Committee is pivoting away from the tracking sheet to an EASIER format.

- a. Find your data on Evolent's RADMD's site.
- b. Download, add the date range, practice name and email to APTA RI Payment Chair Yvonne Swanson - yswanson@highbarhealth.com
- o Here's how: Log in to RADMD > Click on Search for Request>Select -->View all of my own online requests --> once loaded select the little square and download to Excel.

▪ See Below for Pictogram:

2. KEEP reaching out to NHP Directly with your Practice's concerns.

Ask for a meeting!

They want to know how it's going with Evolent, especially in the first 6-9 months.

3. ASK Patient's for their help by sending a letter describing the impact of Prior Authorization on their access to their initial evaluation and concurrent care.

- **Impact Letter: [Share this letter template with patients](#)**
 - Download the template and insert suggested personalization
 - CC Local Legislator and Health Care Commissioner to inform them of patient stories.
 - ***Our state law makers need to know what is happening to their constituents and the burden to providers.***
